Dear Oregon Congressional Delegation,

I am writing to ask you to support the Jordan Cove Energy Project. I understand the project will not move forward without Department of Energy approval. I hope you will do everything you can to ensure this approval happens.

As an area resident, I support responsible development that brings added jobs, and therefore prosperity to a larger section of the local population. These are wonderful people that live here and they have been stuck in economic doldrums for way too long. The people of the Coos Bay Area deserve better and this project offers many opportunities.

For me, the opportunities are clear. As a small business owner in North Bend, my fate is tied to the overall well-being of the local economy. The formula is simple – when people have disposable income, they buy coffee and bagels, but when people are out of work, they don't. The Jordan Cove Energy Project is going to provide jobs for more than two thousand construction workers, and then the operation of the facility is going to support upwards of 750 new, permanent jobs in the area. This is going to generate a lot of foot traffic at my restaurant. I look forward to selling a lot of bagels.

Thanks for anything you can do to support the Jordan Cove project. You and your staff have an open invitation to stop by the Portland Bagel Company whenever you're in North Bend.

Sincerely,

Bruce Moore
Owner
Portland Bagel Company
